Other semester class in Engineering Pathway		
Other semester class in Engineering Pathway		

Career Pathway Requirements

In addition to completing the chart above, complete the requirements below. All information needs to be typed, double spaced, and have your name on it. Staple this form and the information below into one packet.

Work Experience/Job Shadow (may include semester of School Tech Support or Technology TA)

Briefly describe your work experience throughout high school. Include something signed by a person in charge of your work experience or job shadow.

Look to the Future

In 1-2 pages, describe your career plans and educational goals. How have the engineering courses that you have taken over the past four years shaped these plans? What specific TRAITS have you acquired through your engineering classes that will impact your post-high school plans? This should be 1-2 paragraphs.
